Minimally Invasive Percutaneous Stone Therapy Hands-on Workshop

Quebec City Convention Centre
Room 205 C
Quebec City, QC
Sunday, June 30, 2019
07:00 - 08:00
**Course description**

This workshop will provide tips and suggestions for optimizing clinical outcomes during PCNL and will outline some of the key features of minimally invasive percutaneous nephrolitholapaxy (MIP), including:

- Single-step dilation
- Low-pressure irrigation
- Flushing or “vacuum cleaner” effect of irrigation, allowing stone clearance without additional devices

**Learning objectives**

By the end of this course, participants will be able to:

- Identify capabilities of minimally invasive PCNL (MIP)
- Find the smallest possible nephroscope (for the respective stone size)
- Review renal access with one-step dilation
- Use renal low-pressure suction and irrigation system
- Obtain hands-on experience of the “vacuum cleaner effect” and continuous irrigation flow

This program is an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada, reviewed and approved by the Canadian Urological Association. Participants are eligible for a maximum of 1 hour of credit.
07:00 – 07:05  Overview
07:05 – 07:10  System – Details
07:10 – 07:15  MIP – Concept & Highlights
07:15 – 07:25  Application – Tips & Tricks
07:25 – 07:50  Hands-On Training
07:50 – 08:00  Q&A
